Performance Summary

During the first quarter, Blue Point's model portfolio, applied to separately managed accounts, returned 16.60% net of fees. The Total Return of the S&P 500, which includes dividends, was 13.65% during the first quarter. Blue Point outperformed the benchmark by 2.95%.

During the first quarter, Blue Point's portfolio performance benefited from investments made during the fourth quarter of 2018.

Graph footnote: Total Return (TR), includes the reinvestment of dividends.

Disclosures: Performance of the separate accounts can differ substantially from the performance of Blue Point's model portfolio due to timing of entry, whether account is taxable or non-taxable, and the timing of withdrawals. Returns include accrued income since 9/30/14. Past performance does not guarantee future results. The standard investment adviser fee schedule is 1.0% on the first \$3 million, 0.85% on the next \$7 million, 0.75% thereafter. There is no stated account minimum, but the relationship needs to be mutually beneficial. The investment adviser fees are negotiable and may be waived. Blue Point Investment Management, LLC, is a Maryland registered investment adviser. To receive a copy of Blue Point's ADV Part 2, call 443-600-8050.

Market Outlook

➤ **Late Cycle Growth** – The outlook for late cycle economic growth is improving. The positive byproduct of economic growth is less political division. Investing in the late cycle growth is an ongoing focus, but greater analysis is also placed on the demand profile associated with an economic downturn.

➤ **Monetary Stimulus** – The Federal Reserve's election to provide lower interest rates and end quantitative tightening are having a powerful impact on market valuation. There is a strong likelihood the Federal Reserve will have to resume interest rate tightening following the FOMC December 11th meeting. Another December to remember?

➤ **Trade Deal with China** – Disruptive challenges both in China and the U.S. have created a desire for a solution within both countries. There is a growing acceptance that both sides must work with the other. Direct military competition will limit the scope of a trade deal, but at the same time much can be achieved that will be positive for both countries and global growth.

➤ **Productivity Gains** – The tightness of the U.S. job market is setting the stage for technology-enabled productivity gains. The U.S.' strong willingness to engage in technology-enabled creative-destruction is setting the stage for a new engine of growth.

A Global Perspective

Blue Point Investment Management offers equity-oriented growth with a global perspective. The investment discipline seeks Growth at a Reasonable Price. Each client account is managed separately.

The Growth At a Reasonable Price (GARP) investment strategy is a blend of active growth and value investing. As a rule, value investors focus on the price of the security, the numerator of the P/E ratio, while growth investors focus on earnings offered by the security, the denominator of the P/E ratio. GARP represents a blended approach and is often referred to as a market-oriented investment strategy.

Through macro-economic research sustainable long-term trends are identified. Then fundamental research is used to identify the best companies that stand to benefit from favorable trends. Investments are geared towards long-term value creation while preserving capital.

Blue Point seeks equity-oriented growth while actively managing the downside risk. Under normal circumstances, Blue Point invests at least 60% of its net assets in domestic U.S. securities. This global approach offers significant investment opportunities here and abroad. In times of market crisis,

adjustments to portfolio holdings will be made that best serve the preservation of capital while seizing investment opportunities. Cash is used as an asset class in portfolio construction.

Each separately managed account stays in the client's name providing complete transparency. Blue Point receives no commission or compensation that would create a conflict of interest. To further ensure the alignment of interests, Blue Point's portfolio manager invests in the same Blue Point model portfolio as clients.

Blue Point's Twelve Year Performance

	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018
