## Performance Summary

During the fourth quarter, Blue Point's model portfolio, applied to separately managed accounts, returned 6.34% net-of-fees. The Total Return of the S&P 500, which includes dividends, was 5.95%. Blue Point's active management outperformed the benchmark by 0.39%. During 2022 Blue Point returned -22.53% net of fees, while the Total Return of the S&P 500 was -18.11%. During 2022 Blue Point underperformed the benchmark by -4.42%.

Graph footnote: Total Return (TR), includes the reinvestment of dividends.

**Disclosures:** Performance of the separate accounts can differ substantially from the performance of Blue Point's model portfolio due to timing of entry, whether account is taxable or non-taxable, and the timing of withdrawals. Returns include accrued income since 9/30/14. Past performance does not guarantee future results. The standard investment adviser fee schedule is 1.0% on the first \$3 million, 0.85% on the next \$7 million, 0.75% thereafter. There is no stated account minimum, but the relationship needs to be mutually beneficial. The investment adviser fees are negotiable and may be waived. Blue Point Investment Management, LLC, is a Maryland registered investment adviser. To receive a copy of Blue Point's ADV Part 2, call 443-600-8050.

## Market Outlook

### ➤ Value of Fundamental Analysis is Growing –

The Federal Reserve estimates between 5% and 10% of U.S. companies are “zombie companies”, meaning the companies are unable to pay their interest expense with revenue generated for operations. As interest expenses grow, bankruptcy filings are expected to grow.

### ➤ Risk of a Technical Default on the U.S. Debt –

Soon the interest costs for the U.S. Federal debt will be bigger than our spending on defense. Washington needs to find ways to reduce spending. On 9/30/22 the Federal debt was an alarming 120.4% of GDP.

### ➤ Deglobalization is Creating Investment –

Manufacturing investment outside of China is growing as companies seek to lower their dependency on China.

➤ **End of China Growth Model** – The cost of China's broken property sector will impact China's growth for years to come. The property sector in China has represented over 25% of its economic growth. When combined with the private company crackdown, China's consumer growth engine has been damaged.

## A Global Perspective

Blue Point Investment Management offers equity-oriented growth with a global perspective. The investment discipline seeks Growth at a Reasonable Price. Each client account is managed separately.

The Growth At a Reasonable Price (GARP) investment strategy is a blend of active growth and value investing. As a rule, value investors focus on the price of the security, the numerator of the P/E ratio, while growth investors focus on earnings offered by the security, the denominator of the P/E ratio. GARP represents a blended approach and is often referred to as a market-oriented investment strategy.

Blue Point identifies sustainable, long-term trends through macro-economic research. From there, Blue Point uses fundamental research to identify and invest in companies that stand to benefit from favorable trends. Investments are geared towards long-term value creation while preserving capital.

Blue Point seeks equity-oriented growth while actively managing the downside risk. Under normal circumstances, Blue Point invests at least 60% of its net assets in domestic U.S. securities. This global approach offers significant investment opportunities here and abroad. In times of market crisis,

adjustments to portfolio holdings will be made that best serve the preservation of capital while seizing investment opportunities. Cash is used as an asset class in portfolio construction.

Each separately managed account stays in the client's name providing complete transparency. Blue Point receives no commission or compensation that would create a conflict of interest. To further ensure the alignment of interests, Blue Point's portfolio manager invests in the same Blue Point model portfolio as clients.

## The Manager's Corner

### PORTFOLIO MANAGER:

Niall H. O'Malley (pictured) is the founder and Managing Director of Blue Point Investment Management, which manages accounts on a separate account basis. Niall has an MBA from George Washington University in Finance and Investments with minors in Business Law and Taxation. All of these activities build on strong professional experience working for buy-side firms, consulting, and over seven years with a top-ten U.S. commercial bank. Prior to starting Blue Point, Niall was a Vice President of Credit & Risk Management at SunTrust Bank.

He passed Level II of the Chartered Financial Analyst examination in 2005, and holds the Series 65 License from FINRA.

Niall regularly speaks to CFA Society, university and investment groups. He served on the Board and the Program Committee of the CFA Society Baltimore for 13 years, and now serves on the Society's Advisory Board. Niall served as President of the CFA Society Baltimore from 2009-2010, and founded the Baltimore Business Review. He served as Co-Editor of the Baltimore Business Review for eight years, while being a contributor. Niall has

taught Investments and Equity Security Analysis as an Adjunct Professor at Towson University, College of Business and Economics.
